ABOUT ME

Industrial Engineering and Management student (2nd year) at NOVA FCT. Interested in Artificial Intelligence and Python programming, aiming to acquire practical skills that complement my academic background and strengthen my preparation for future professional challenges.

ACADEMIC BACKGROUND

Education

Bachelor's Degree in Industrial Engineering and Management – NOVA FCT, Monte da Caparica (2nd year in progress, 2024/2025)

- Knowledge in mathematics, economics, 3D modeling, computer science, and product design.

Python Essentials Course (2025)

- Completed course on Python programming fundamentals and practical applications.

English Course – Cambridge English, Charneca da Caparica (2019–2025)

- Gradual progression with First Certificate in English (B2) achieved and currently attending C1 Advanced.

French Course – Language Institute, NOVA University Lisbon (FCSH) (2025)

- Gradual progression, current level A2.

Summer Schools – NOVA FCT (2022)

- MatNova 2022: practical activities related to mathematics and professional applications.
- Biomedical Engineering Summer: exploration of topics related to Biomedical Engineering.

Other Experiences

- Experiência internacional: Interrail por vários países europeus, com enriquecimento cultural e pessoal.
- Participação e distinções em concursos de Matemática (Canguru, Khan Academy, Olimpíadas de Matemática).
- Prática regular de modalidades desportivas: jogging, natação e ciclismo.
