About Me

Final year Industrial Engineering and Management student at FCT NOVA, with experience in inventory analysis. Eager to get familiarized with the industry. Interested in applying Machine Learning and other digital tools to optimize production systems and business processes.

Education

Bachelor's Degree in Industrial Engineering and Management

NOVA School of Science and Technology
September 2023 – June 2026 (Projected)

- 120 ECTS
- Learned to apply lean manufacturing principles, gaining insight into efficiency improvement and waste reduction.
- Studied project management methodologies: how to plan, execute, and monitor engineering projects.

CS50P: CS50's Introduction to Programming with Python

HarvardX
September 2025 – October 2025

Samsung Innovation Campus: Artificial Intelligence Course, 9th Ed.

NOVA School of Science and Technology: Executive Education
October 2025 – March 2026 (Projected)

- Developed skills in statistical modeling and predictive analysis.
- Applied machine learning concepts and pattern identification.
- Developed practical projects in a team-based environment.

Master's Degree in Data Science

September 2026 – June 2028 (Projected)

- Planning to enroll in a Master's Degree in Data Science.

Experience

Logistics and Inventory Analysis Intern

Sandometal
January 2026 – February 2026 (Projected)

- EDA on years of historical data, identifying trends, outliers, seasonality, and demand variability.
- Statistical stock modeling and inventory segmentation.
- Gained appreciation for process efficiency and client-focused operations.

Skills

Software: Microsoft Office, Python (Pandas, NumPy, Scikit-learn), AI/ML Algorithms, SQL
Languages: Portuguese (Native), English (Advanced)
